

Michael Huang

221 S. Gale Dr., Beverly Hills, CA 90211 | (310) 498-5623 | michaelhuang777@gmail.com

Education

University of California, Los Angeles | Los Angeles, CA
B.A. in Philosophy, concentration in Critical Thinking and Logic

Dec 2022

UCLA ext. Coding Bootcamp | Los Angeles, CA
Certificate in Full Stack Web Development

June 2023

Skills

Languages	Javascript, Python, HTML, CSS
Frameworks	Node.js, React, Express.js
Databases	MongoDB, MySQL
Tools	Git/GitHub/Gitlab

Projects

Water Battle

- Created a replica of the board game Battleship with a polished user interface and interactive features
- This project uses React for the frontend, MongoDB and MongooseODM for the database, queries, and mutations, and JWT for authentication to protect sensitive information on the server

The Third Michelin

- Created an application that works similarly to a cookbook - though there are different dishes in it already, you can add your own dishes, their recipes, and how to make them
- You can also rate the dishes and write a reviews about them for others to see on the site
- This project uses sequelize, node.js, mysql2, and dotenv

Gig Grabber

- Created a dynamic concert search engine that allows you to easily find upcoming concerts for your favorite artists, as well as shows their top songs through Spotify
- The database ensures that you have access to the latest tour information, and the user-friendly interface makes it simple to search for concerts by artist name and preferred location
- This project uses the Bandsintown API and Spotify API

Work Experience

Citibank | Los Angeles, CA

Aug 2021 - Oct 2022

Teller
